

SKILLS	
❖ Languages:	Python, C++, C , ,HTML, R, JavaScript
❖ Tools/Platforms:	Colab, Jupyter, Rapid Miner, Cisco Packet Tracer, MS Office, Spring, PowerBi, Tableau, Eclipse
❖ Libraries:	Pandas, NumPy, Tkinter, Seaborn, CSV, SQLite, Matplotlib, Sci-Kit, MATLAB, SciPy, ReactJS
❖ Databases:	MySQL, SQL
❖ Soft Skills:	Problem-Solving Skills, Team Player, Project Management, Adaptability

PROJECTS	
❖ Indian Sign Language to Text/Speech Translation	Mar 2025 - Present
- Developing a real-time translation system for Indian Sign Language (ISL) to text and speech, enhancing accessibility for the deaf and hard-of-hearing community. - Implementing machine learning models for high-accuracy sign recognition and multilingual speech synthesis. - Optimizing processing efficiency with lightweight models for seamless real-time translation on mobile devices. Tech: Python, OpenCV, TensorFlow, NLP, Google TTS, Django	
❖ Student Metrics Insight	Sep 2024 - Nov 2024
Developed a Python-based analytics project to analyze student behavior and performance metrics collected via a Tkinter GUI and Google Forms. - Designed a user-friendly GUI for seamless data collection and interaction with Database integration. - Analyzed student metrics like CGPA, attendance, and stress levels for actionable insights of more than 1000 students by collecting data using Google Forms and Tkinter GUI. - Created 20+ interactive visualizations to highlight correlations using Matplotlib and Seaborn. Tech: Python, Tkinter, Matplotlib, NumPy, Seaborn, Pandas, CSV, Error Handling, Google Forms, SQLite, PowerBi	
❖ Library Management System:	
- Developed a C++-based Library Management System to manage book issue, return, and record management operations. - Implemented file handling to store and update book details, student records, and availability status. - Applied Object-Oriented Programming (OOP) concepts such as classes and objects for modular design. - Added features for due date tracking and fine calculation for late returns. - Tech: C++, File Handling, OOP Concepts	

CERTIFICATES AND JOB SIMULATION	
❖ Data analysis – Skill Master	Feb 2026
❖ Python for Data Science – IBM	Mar 2025
❖ Object-Oriented Programming Specialization by University of London	Sep 2024
❖ Full stack web development – Teach nook	Aug 2024
❖ Microsoft Power BI - Coursera	Aug 2024
❖ Software Engineering –Saylor Academy	Aug 2024

EDUCATION	
• Lovely Professional University Masters of Computer Applications - Computer Science; CGPA: 7.2	Jalandhar, India Aug 2023 - Present
• University Of Kashmir Bachelor of IT; Percentage: 80 %	Srinagar, Kashmir, India Apr 2019 - Sept 2023
• Government Boys Higher secondary School Intermediate; Percentage: 73%	Kupwara, Kashmir, India Apr 2016 - Mar 2017
